

Deepfake Verification Report

AI-Powered Multimedia Authenticity Platform

RISK LEVEL: LOW - Authentic

This is a rule-based forensic assessment, not an AI confidence score. Each flag below is a deterministic, explainable signal. Treat results as leads for further review, not definitive proof of forgery.

Document Information

Filename: test.pdf
File Type: PDF
Pages Analyzed: 1

Findings

- Smart quotes " " and dashes - detected

Extracted Text (preview)

A Project Report on "Multiple Disease Prediction System With Simple Medical Chatbot " Bangalore-560 049
